

Splitter-B

Bread splitting device with band blade

Ipeka Splitter-B is a multi-purpose band blade bread-cutting device. It splits, for example, Small Rye Breads, Bread Rolls, Buns and Pita Bread. The Splitter-B is equipped with a height-adjustable blade and an upper conveyor so that split bread height can be adjusted from 10 to 40mm. Products are driven through the device in two rows. With constant product flow it can achieve up to 14,000 pieces hour capacity. Post-processing and packaging after the Splitter-B are easy when bread is split precisely and halves are accurately overlapping.

If you are looking for a device for splitting wide diameter flat bread, please check out our Splitter2. In case hinge cut, please check Ipeka Disclicer.
