

CL-35

Bread bagging and clip closing machine

The CL-35 has remained popular for decades and the equipment has been delivered to over a thousand units, more than any other single Ipeka product.

The reasons for its popularity are clear: The CL-35 is a fast, easy to use and compact bagging machine with good ergonomics. Its safety solutions are implemented in such a way that they do not interfere with the process. Round loaves are difficult for a number of packaging machines, but the CL-35 handles them just fine.

Mechanical function
